The manga meticulously constructs this world, presenting a society where vampires, once hidden and feared, have revealed themselves to humanity and established their own sovereign territory. This bold move, orchestrated by the enigmatic Queen Mina Tepes, sets the stage for a complex relationship between the vampire and human worlds, rife with tension, suspicion, and unexpected alliances.

The Bund operates under a unique set of regulations, designed to maintain peace and order within their community while also navigating the delicate balance with human nations. This societal framework is crucial to understanding the motivations and actions of the characters. The existence of the Bund as a sanctuary for vampires, offering them protection and a place to
