Booth presents an alternative perspective on world events, suggesting that much of history is influenced by unseen forces and wisdom.

2. *The Lost Book of Enki* by Zecharia Sitchin

Sitchin offers a narrative based on Sumerian mythology, presenting a story of ancient extraterrestrial beings called the Anunnaki. The book claims to reveal the origins of humanity and ancient civilizations through these ancient texts. It ties into themes of ancient knowledge and cataclysmic events similar to those discussed in "After the Flood."

3. *Fingerprints of the Gods* by Graham Hancock

Hancock investigates evidence of a lost advanced civilization that existed before recorded history. The book examines archaeological sites, ancient myths, and geological data to argue that a global catastrophe wiped out this civilization. It complements themes of ancient cataclysms and the origins of human knowledge.

4. *Cataclysm!: Compelling Evidence of a Cosmic Catastrophe in 9500 B.C.* by D.S. Allan and J.B. Delair

This book presents geological and archaeological evidence of a massive cosmic impact event that caused

widespread destruction at the end of the last Ice Age. It explores how this event shaped human history and mythology. The authors connect this cataclysm to flood myths found worldwide.

5. *The Atlantis Blueprint* by Colin Wilson and Rand Flem-Ath

The authors investigate the possibility that the lost continent of Atlantis was a real place and the source of ancient advanced knowledge. They explore geological, archaeological, and mythological clues to reconstruct this ancient civilization. The book discusses global flood myths and their connection to Atlantis.

6. *When the Sky Fell: In Search of Atlantis* by Rand Flem-Ath

Flem-Ath explores the theory that Earth's crust shifted, causing massive floods and the destruction of ancient civilizations like Atlantis. He provides geological and historical evidence supporting this hypothesis. The book aligns with themes of global cataclysms and lost knowledge much like Cooper's work.

7. *Earth in Upheaval* by Immanuel Velikovsky

Velikovsky proposes controversial theories about catastrophic events in Earth's recent past, including planetary near-collisions that caused upheavals on Earth. His ideas challenge conventional geology and history, suggesting that ancient myths preserve memories of these events. The book is a classic in the field of catastrophic history.

8. *The Book of Enoch* translated by R.H. Charles

An ancient Jewish apocalyptic text attributed to Enoch, the great-grandfather of Noah. It contains stories about fallen angels, divine judgment, and cataclysmic events preceding the flood. The text has influenced many flood narratives and offers insight into ancient perspectives on cosmic disasters.

9. *Flood Myth and the Ancient World* by William H. Shea

This scholarly work examines flood myths from various cultures around the world, comparing their similarities and differences. Shea explores how these myths might be rooted in actual historical events or natural disasters. The book provides a comprehensive understanding of the flood motif in human history and mythology.
