## Understanding Run-On Sentences

Run-on sentences are grammatical errors that occur when two or more independent clauses are joined without the correct punctuation or conjunction. They can confuse readers by blending separate ideas into one continuous, often lengthy sentence. Understanding what constitutes a run-on sentence is crucial for effective written communication.

## Definition and Examples

A run-on sentence happens when clauses are improperly connected. For example, "I went to the store I bought some milk" is a run-on because it lacks punctuation or conjunction to separate the two independent clauses. Correcting it might involve inserting a period, semicolon, or coordinating conjunction: "I went to the store. I bought some milk."

## Common Causes of Run-On Sentences

Run-ons often result from a misunderstanding of sentence boundaries or an attempt to combine ideas without proper connectors. Common causes include:

- Confusing sentence fragments and run-ons
- Lack of awareness of sentence structure rules
