Overview of Certiport PowerPoint 2019 Exam

The Certiport PowerPoint 2019 exam is part of the Microsoft Office Specialist certification program designed to assess proficiency in Microsoft PowerPoint 2019. This exam measures a candidate's ability to create, format, and manage presentations, incorporating various multimedia elements and collaboration tools. Successful completion signifies that the individual possesses the skills necessary to produce professional and effective presentations in a business or academic environment.

Exam Structure and Format

The exam consists of performance-based tasks that require candidates to complete real-world PowerPoint activities within a specified time frame. Tasks may include creating slides, inserting and formatting text and images, applying transitions and animations, and managing presentation settings. The exam typically lasts around 50 minutes and includes a series of projects that simulate actual PowerPoint usage scenarios.

Scoring and Passing Criteria

Scoring is based on the accuracy and completeness of the tasks performed during the exam. Candidates must achieve a minimum passing score, usually around 700 out of 1000 points, to obtain certification. The exam results provide detailed feedback on performance in different skill areas, helping candidates identify strengths and areas for improvement.

Key Topics Covered in the Exam

Understanding the key topics covered by the certiport powerpoint 2019 exam answers is crucial for effective preparation. The exam tests knowledge and skills across various PowerPoint functionalities, ensuring comprehensive mastery of the software.

Creating and Managing Presentations

This topic involves creating new presentations, opening and saving files in different formats, and managing multiple presentations. Candidates should be proficient in using templates, themes, and slide layouts to improve presentation design and consistency.

Inserting and Formatting Content

The ability to insert and format text, images, shapes, tables, charts, and multimedia elements like audio and video is a central focus of the exam. Candidates must demonstrate skills in text alignment, font customization, image cropping, and applying effects to enhance visual appeal.

Applying Transitions and Animations

Adding slide transitions and object animations is essential for creating dynamic presentations. Candidates should understand different transition types, animation sequences, and timing adjustments to produce engaging and professional slideshows.

Reviewing and Collaborating on Presentations

Collaboration features like comments, slide notes, and sharing options are evaluated. Candidates need to know how to review content, track changes, and prepare presentations for delivery, including setting up slide shows and rehearsing timings.

Common Exam Question Types and Answers

The certipoint powerpoint 2019 exam answers often reflect real-world tasks rather than traditional multiple-choice questions. Familiarity with typical question formats improves performance and time management during the exam.

Performance-Based Tasks

The exam primarily features performance-based questions where test-takers must complete specific actions within PowerPoint. Examples include adjusting slide layouts, applying themes, inserting charts, or creating custom animations. Correct answers require precise execution of these tasks according to given instructions.

Scenario-Based Questions

Scenario-based tasks present a realistic situation requiring multiple steps to achieve a goal. For instance, candidates might be asked to format a presentation for a business meeting by incorporating branding elements, adding speaker notes, and setting up slide transitions. The best answers demonstrate both technical skill and contextual understanding.

Sample Answers for Common Tasks

- **Inserting a Table:** Use the Insert tab, select Table, specify rows and columns, and format the table using Design and Layout tools.
- **Applying a Theme:** Navigate to the Design tab, choose a theme that matches the presentation purpose, and customize colors and fonts as necessary.
- **Adding Slide Transitions:** Select the slide, open the Transitions tab, choose a transition effect, and adjust timing and sound settings.
- **Embedding a Video:** Click Insert, select Video, choose the file, and configure playback options like start automatically or on click.
